Your Green Council will...

Protect green spaces

We will defend the Green Belt, opposing building projects that threaten it at Whitewebbs and Crews Hill. We will protect and expand your access to nature.

Make green homes affordable for all

We will prioritise genuinely affordable social-rent housing, using brownfield land wherever possible. We will bring empty homes back into use, and upgrade existing homes to cut your bills and improve your living standards.

Support you when it matters most

We will strengthen support for those most in need. We will reduce homelessness, protect social care, and help residents through the cost of living crisis.

Celebrate our community

Enfield's diversity is a strength. We will stand up for inclusion, promote equality, and challenge divisive rhetoric. We will build a borough where everyone feels welcome.

Encourage cleaner, greener travel

We will make it easier and safer for you to walk, wheel, and cycle. We will reduce congestion and improve everyday life by introducing low-traffic and low-speed neighbourhoods. We will ensure new infrastructure is designed to encourage active travel.

Improve air quality

We will protect public health by pushing for stronger air-quality monitoring and opposing harmful developments such as the expansion of the Edmonton Incinerator.

Act on the climate emergency

We want Enfield to be a positive force in the climate emergency. We will consider climate action in every council decision and invest in renewable energy.

Use your money ethically

We will ensure council funds and pensions are invested responsibly. We will stop investing in fossil

fuels and in companies complicit in genocide in Gaza. We will support ethical, sustainable alternatives.

Clean up our streets

We will tackle fly-tipping, and improve street cleaning and maintenance. We will invest in safer street design, including better lighting.

Tackle the causes of anti-social behaviour

We will focus on preventing, rather than policing, anti-social behaviour. We will work more closely with police, schools, health services and community organisations.

Protect your health

We will ensure local services have enough resources to deal with a future health crisis. We will provide additional public health education to address damaging misinformation.

Provide a fair future for every child

We will actively increase SEND support within schools in line with recent national reform proposals. We will also push for fair funding of London boroughs. There should be a long-term financial settlement for Enfield Council.

Create opportunities to build skills

We will invest in youth centres and expand the apprenticeship scheme to give young people the skills, experience, and opportunities they need to succeed.

Be a Council that answers to you

A Green Council for Enfield will be open, transparent, and accountable. We will make decisions with you, not for you. The councillors you elect will be visible and responsive all year round.

The London Green Party has over 40,000 members and Enfield Greens are growing rapidly.
