So many misleading statements! Where is the evidence?

**Decisions should not be made behind closed doors!**

We know developers were at the table. Why weren't we?

**Steve Reed was in Enfield but didn't visit Crews Hill. Why?**

Enfield Council is hiding evidence from everyone – even the GLA!

**CH&CPNT is the only greenfield new town location. How did that happen  
when brownfield sites were put forwards and declined?**

Enfield Council's house building record is poor. They cannot be trusted  
with Enfield's future.

**Why Enfield's Green Belt and not Meridian Water?**

You all say 'Brownfield first' – live up to your own policy!

**4,500 empty homes in Enfield, 300,000 outstanding planning permissions  
in London, brownfield sites in Enfield for 30,000. The numbers don't lie.**

**But somebody does!**

Why would Enfield Council contemplate destroying thriving businesses  
and hundreds of jobs?
